

NOTICE

This is a reminder regarding hostel regulations on the use of electrical appliances and the bringing of food to the hostel premises.

1. Use of Electric Gadgets

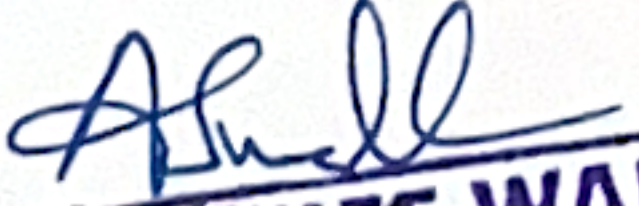

It has come to our attention that some students are using electric gadgets such as rice cookers, water heaters, and kettles in their rooms. Please be reminded that these appliances are not permitted in hostel rooms. Any student found using these gadgets will face strict disciplinary action, as outlined in the hostel rules.

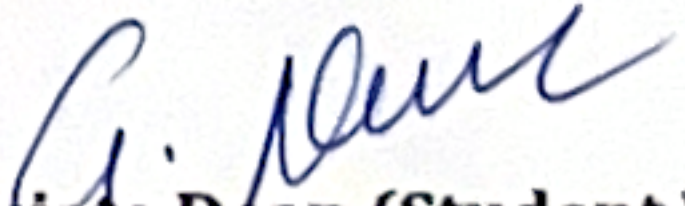

2. Bringing Food to the Hostel

Additionally, many students have been found bringing meals from the dining hall to their rooms. This practice has led to blockages in sinks and drains, which disrupts hygiene and maintenance. Bringing food to hostel rooms is strictly discouraged. Disciplinary action will be taken against students who continue to violate this rule.

Note: However, if you need to bring food to your room due to health reasons, permission will be granted in line with hostel regulations. Please ensure that any such requests are made formally and approved by the hostel management.

We appreciate your cooperation in maintaining a safe and clean living environment.
