T&P Office/Notice/20-21/ 199

Date: 03 June 2021

Dear Students,

We are all living in a world where each of us are battling one of the biggest humanitarian crisis of our lifetime. But this is only a symptom of a bigger threat that looms over us – that of the ongoing impact Climate Change on our planet. This environmental crisis is a ticking time bomb that needs our attention now. We must come together and join hands to tackle this on priority.

As part of our efforts to continuously encourage you to learn and grow, we would like to extend a special invite to all our female students to be a part of a their annual Hackathon, being held in partnership with IBM.

With the theme She the Force – Hack For Sustainability, the aim of this Hackathon is to bring together transformative ideas and innovative solutions to build a sustainable future; a healthy ecosystem and a greener, safer planet. We encourage all our young aspiring thinkers to synergize with like-minded peers in your networks, within the community or outside; collaborate, ideate and literally, “hack for sustainability” with purpose driven tech solutions.

Regardless of your experience, this initiative is open to anyone with the talent, skill and willingness to create actionable ideas for a sustainable future of our planet.

You will find all the details about this event here -

<https://wit-ace.com/events/marquee/detail/660433-she-the-force-wit-ace-hackathon>

Here are some important dates for you to keep in mind:

Registration Begins – 19th May
Registration Closes – 9th June
Hackathon Event Dates – 16th to 18th June 2021
Mentoring & Technology Enablement session by IBM & WIT ACE – 10th to 15th June
Last date of idea submission – 18th June

We hope you find this opportunity interesting, exciting and use it to build a positive and constructive change around us. Here is wishing you the best of luck with your ideas and participation.

Warm regards,
