Let's Rebuild Our

HOPE HOUSE

- Light for life

"Next to creating a life, the finest thing a man can do is save one."

1. What is HOPE HOUSE?

Hope House is a trust formed to help the students who are in need. Most of the students of RGUKT are from a rural background and struggle for economical support. It's aim is to fulfill the requirements and to give support for genuine problems to help the students in the best possible way with more transparency.

2. How it was initiated?

Hope House was started by the Students,for the students,off the students(B11- batch) with a strong motive and desire to serve their RGUKT Basar family on 15-08-2015.

Throughout its journey, Hope house remained as a beacon of light for the needy, spent every penny received for genuine causes in a genuine and more accountable manner.

3. Why HOPE HOUSE?

The students in our university are here to build their future in a great way but, in their journey, they may face some difficulties. Hope House will be a helping hand to support them all the way to reach their dreams and desires if they are not affordable to solve their constraints.

A true talent and valuable life should not go away because of financial problems. So, We(Hope house) can save a life and student's bright future by providing financial support as well as positive hope on fast recovery.

Hope house tries to give quick response when somebody facing problems. It has to be a torch bearer for the one who needs.

4. Who will get benefitted?

The one who is with a genuine problem and valid reason will get benefitted. Some of the areas where Hope house can be handy are below mentioned.

- Diseases
- Emergency cases(accidents and Operations)
- Wheel chairs/Tricycles for physically challenged students
- Finacially backward and underprivileged students necessities
- Victims of natural calamities
- Hospital cases
- Others (Providing books for very economically backward students.....)

5. Scope of the Students in HOPE HOUSE

It is so important to observe that everything comes by experience and will be continued by next generations from the past experiences. Hope house will follow the same criteria and students from every batch will be part of Hope House. Every student who is a member/volunteer will be treated equally and share their responsibilties.

The more interested people do more things than others. So, based on the student's dedication towards the work with Hope House, some students take lead to run the Hope house and rest of the students will also be part of Hope House as usual but there will be more responsibilties to the students who are leading.

Interviews will be conducted every year to new batch(PUC1) students and the selected people has to work closely with Hope House and observe the things in Hope House so that, the legacy has to be maintained. And they will be aware of the things so that it will be running smoothly with transparency.

6. How HOPE HOUSE does the action?

Hope House includes Chief Patron and Patron as it's head which shows its identity. And also Hope House includes faculty,alumni and student committees and forms a decision making body who can serve better than anyone. They are the main roots of the Hope House tree and those three will be key role in releasing funds and organizing Hope house events as well.

Student committees are the heart of the Hope House and they play a major role in making Hope House sustainable and serve as much as possible.

The below structure depicts the Hope House body.
