To,
Dr.A.Ashok, IAS
IIIT Basar,
Vice-Chancellor, RGUKT,
Basar, Nirmal Dist.
Telangana,
India

Greetings from Girls in Tech Foundation!

It gives us immense pleasure to invite your institution participation for the event SheBuildsTech, hosted by Girls in Tech Foundation in association with APSICHE, Government of Andhra Pradesh and US Consulate General Hyderabad in collaboration with IBM at Andhra University, Visakhapatnam on 19th and 20th of August, 2017.

For more information: www.shebuildstech.com

Girls in Tech Foundation is a non-profit NGO focused on women in STEM (Science, Technology, Engineering and Mathematics) and Entrepreneurship. SheBuildsTech aims to provide a supportive platform which empowers women, developers/ students, to explore their technical skills using a hands-on approach. Our flagship Hackathon

will see the reputed state government, international NGOs', and corporate come together to identify and back transformative technology solutions encompassing Big Data, IoT & Cloud Technologies to build Smart City Solutions which will improve the lives of citizens and make them an integral part of governance. The event will be held in Vishakhapatnam, a designated Smart City according to the Government of India and an important economic hub of the state of Andhra Pradesh.

The areas the hackathon focuses are: 1. Collaborative Governance 2. Improve accessibility to physical infrastructure 3. Eco- friendly solutions for smart city 4. Empowering women

The Hackathon salient features are (a). (First women hackathon for smart cities in India)- 2 day Hackathon from morning 9 am to 6 p.m (b) Team size is 5 members (c). Pre-Hack Induction programme (Virtual) (d). Each team is supported by a mentor (industry expert) (e). Corporate professionals to assist the teams based on platform or technology chosen for the event. (f). Teams assisted by mentors present their work to a judges panel for final judging on finale day evening. (g). To bring the solutions as part of the Hackathon to reality to assist on smart cities and possible public policy suggestions.

We believe this program will have a great impact in empowering women to be a part of the solutions of Smart City and take part in becoming a critical factor to move towards digital awakening and we hope to get your support in realizing this transformation.

As an institution, we would request you to kindly nominate 50 girls (from Engineering stream and for the criteria kindly refer the website - www.shebuildstech.com) and request you to appoint a faculty coordinator to accompany the students. The students and the faculty shall be provided accommodation by Andhra University. Kindly share with us the confirmed list of participants by August 8th on your letter head.

We seek your confirmation to help us make this event a success!
