

Workshop

Web Development:

The web is a dynamic sea of information experiencing rapid expansion. Web developers help make that info accessible, organized, and useful. They also implement new tools and applications every day that enhance pretty much every industry or economic sector you can name.

Once you learn web development, you can build your own websites, become a free lancer and make money.

NOTE: PEOPLE WITH **NO CODING KNOWLEDGE** CAN ALSO ATTEND THE WORKSHOP, WE WILL BE TEACHING WEB DEVELOPMENT FROM SCRATCH.

Requirements:

1. Software: Sublime Text, XAMPP.
2. Content file for further reference (Will be provided by us).

Workshop Outline:

1. Introduction to Web Development.
2. Introduction to Internet.
3. Importance of Web.
4. Diving deep into HTML, CSS, JavaScript, PHP and MySQL (Languages used).
5. Creating own projects (Details are mentioned below).
6. Hosting your own website.

Sessions Schedule:

The workshop will be held for one day (i.e. **On 21.02.2020**) in two sessions. The session details are given below.
