

TCS OFF CAMPUS RECRUITMENT DRIVE

It is hereby informed to all E4 Students that TCS conducting Off Campus recruitment drive for 2018 passouts. Interested and eligible students need to register by **06.11.2017, 2:00PM**.

Registration link: <https://nextstep.tcs.com/campus>

TCS Online Test – iON Platform:

There will be 4 sections in the online test, which are as follows:

1. Verbal - 10 mins - This is basically an email writing section. Please ask students to read the instructions carefully and then attempt this.
2. Quantitative Aptitude - 40 mins - This will have quantitative aptitude and logic related questions. There is negative marking in this section. Please ask students to practice sample TCS test questions available on Open See Same section in NextStep portal.
3. Programming Proficiency - 20 mins - Multiple Choice section, there is negative marking. Questions on programming, basic IT concepts, will be asked, some questions may give a small piece of code and ask students what is the output. Ask them to prepare on C programming for this.

4. Live Coding - 20 mins - Students have to write a program to solve a particular problem. The program has to be in C. Please ask them to prepare basic programs for this.

Note: Please note that the input to the program should be passed as command line parameters, i.e. they should not use functions like `scanf()` or `getch()` in their code, rather those parameters should be passed in the **main()** function only - in a format like **`int main (int argc, char *argv[])`**
