

All the students are informed that the computers having **WINDOWS** as Operating system are to immediately format their computers and shift on to **LINUX**.

Campus computers connected on LAN should not have dual boot operating system, and should operate only on **LINUX OS**.

WINDOWS Operating system is not to be used in LAN.

Physical verification of the computers will be conducted and severe disciplinary action will be initiated against the defaulters.

Contact respective system administrators of the Academic block for any query/complaint.
