INTERACTION WITH MENTORMINDS

MentorMind is an online platform which provides real-time projects through collaboration with real companies. These projects are called Mentornships since they are carried out by the students under the guidance of expert mentors from industry. Successful mentornships are certified by the company. Students can take up multiple mentornships and acquire multiple certificates for successfully completed mentornships. Acquired certificates can then be used for procuring paid internships or even placements in these companies at a later stage.

Some of the companies that are associated with mentornships in MentorMinds are Uber, jda, Triumph, Clappia, Sunworks Energy, 3DM etc.

MentorMind team is coming to the campus on December 20th, Thursday and will be interacting with the students at 4.30 PM in the AB1 Auditorium. Students from (E1 to E3) ECE and CSE students (and others who are interested in taking up industry projects in coding/IT) can attend the interactive session with MentorMind team.

Date: 20th December 2018 (Thursday)

Time: 4.30 PM

Venue: AB1 Auditorium
