Job Description:

Data Analyst assists Analytics Consultants to design and execute analyses to address business problems for our clients and project teams. Data Analysts assist ACs leverage their analytic skills to find data-driven insights that help our clients solve their most important business problems and engage with clients to help them understand the implications and make plans to act on them.

Responsibilities:
- Leverage analytic techniques to use data to guide client and SetuServ team decision-making;
- Design custom analyses in Tableau and Excel to investigate and inform client needs;
- Advance problem-solving skills and improve SetuServ's capabilities;
- Synthesize and communicate results to clients and SetuServ teams through oral and written presentations;
- Provide client and SetuServ teams project status updates;
- Create project deliverables and implement solutions;
- Guide and mentor other Analysts on teams.

Example problems you would be solving at SetuServ:

- Design and develop tools(excel/Tableau) for client's salesforce teams
- Design and develop decks using PowerPoint to answer key business questions from data
- Coordinate with a team of ~5 analysts to work towards project completion

Requirements:
- High motivation, good work ethic, maturity and personal initiative;
- Fluency in English is required along with strong oral and written communication skills;
- Empathy, adaptability and emotional intelligence;
- Close attention to detail, with a quality-focused mindset;
- Self-discipline for planning and organizing tasks;
- Aptitude for, and enjoyment of, working in teams.
- Experience of organizing college fests/workshops/events

Why work at SetuServ?
- Work directly with and get coached by professionals with 15+ of experience in Technology, Machine Learning & Management Consulting
- Work with world class clients/build products in a cutting-edge emerging area – Intersection of artificial intelligence and human intelligence
- Engage and learn from our advisors that are world class experts holding senior positions at tech giants
- Competitive salary & stock options
- Opportunities to grow exponentially with us
