

### TCS NQT Steps to Complete and System – Specific Requirements

#### STEPS TO COMPLETE

1. To download and start the launcher: Click on the link for the launcher <https://learning.tcsionhub.in/hub/national-qualifier-test/eventlogin> or copy paste the link in browser
2. Start the assessment with login credentials, as mentioned above
3. Note down the unique key generated. The token (Unique key) generated will be valid only for 10 minutes. The timer will be displayed on your screen. You can copy the token to be pasted later. Download the launcher applicable to your OS and extract (unzip) the downloaded file.
4. Open the launcher and input the unique key (token) generated.
5. Select the browser and click Launch to start the assessment. Click Run Anyway, if prompted. This will force close all other programs that are running. If you are not able to start the assessment within ten minutes, you should try and generate new key by clicking the link again.

Note: Launcher application is same for Windows 7 or Windows 10 and there is a different launcher for Ubuntu 14 or Ubuntu 16.

For any further help in completing the IRC, you can reach us in [1800 266 6282](tel:18002666282)

### System-Specific Requirements:

The system from which you will be taking the exam must have the following:

- \* A working web cam and a microphone
- \* Launcher for the respective Operating System (OS) downloaded before taking the Mock Assessment. Launcher download details are given further below.
- \* Recommended browser: Google Chrome and Browser zoom set to 100%
- \* Minimum internet bandwidth of 5 Mbps
- \* At least 100 MB of free disk space to download a 45MB file which is required to launch the assessment
