Software Developer Intern

Work Location: Hyderabad, India

About Arcadis IBI Group

ARCADIS | IBI GROUP is a Toronto based technology-driven multi-disciplinary firm with global architectural, engineering, planning and technology expertise. We work across disciplines to define the cities of tomorrow through intelligent systems, sustainable buildings, and efficient infrastructure, shaping the way people live and move.

IBI Group was incorporated 48 years ago in 1974. We have 3500+ people from 70+ offices across 60+ countries. IBI Group was acquired by Arcadis in July 2022 for C\$873 million.

This role is in the IBI Digital business unit that was set up in 2015 with the objective of creating a new digital business line for IBI focussing on digital initiatives. IBI Digital is a team of hundred and operates like a start-up within the bigger IBI organisation. We are developing four cloud-based software products.

Our Products Want to Say 'Hi'!

 Nspace is a workspace booking, scheduling and workplace management solution that can simplify the logistics involved in returning to onsite work and enable the hybrid working experience that employees seek. It understands how your space is used and plans for future needs making it simple for employees to connect, collaborate, and get productive.

 Smart City Platform is an open technology framework allowing cities to connect their own existing systems with our onboard tools and insight-driven data analytics, focused on outcomes for city residents. Combining big data and predictive analytics to support improved decision-making, the Smart City Platform is designed to connect stakeholders with the services, information, and insight they need.

 CurbIQ helps cities across the world address a similar challenge: understanding how their curb space has been designated, what the exact regulations are, and when or where these regulations apply. By digitizing curbside regulations, CurbIQ helps cities better understand how their curbs are working today and provides a platform to improvise operations.

 InForm is an asset management solution designed to serve the needs of building owners, corporate facilities managers, and transportation agencies, saving them money and time by giving them a platform that offers a series of modules that help users track asset and financial information, manage maintenance events, issue work orders, plan and optimize space, and streamline day-to-day operations.

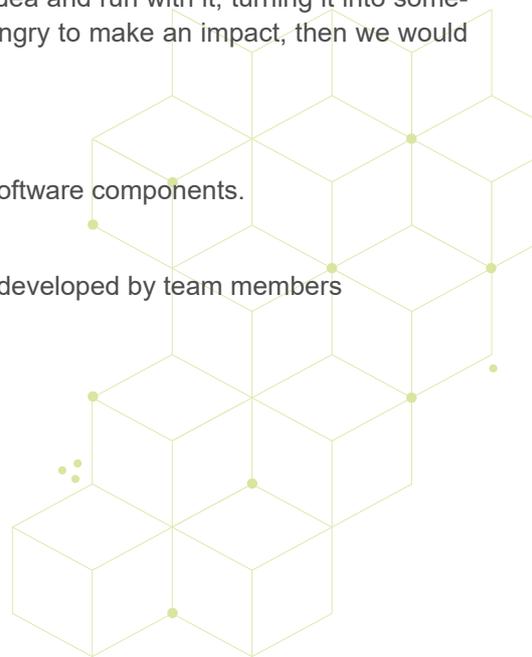

Are You the Rockstar We are Looking For?

Our ideal candidate is a Software Developer Intern for creating clean, modern, scalable, secure, and maintainable code for SaaS based web products. We are looking for someone who can take an idea and run with it, turning it into something worthwhile and beneficial. If you are someone who loves to build and hungry to make an impact, then we would love to hear from you!

Job Responsibilities

- ◆ Design and implement core, high-performance, scalable, and reusable software components.
- ◆ Building reusable code and libraries for future use
- ◆ Develop technical product specifications for modules and features to be developed by team members
- ◆ Be the go-to-person for resolving technical issues faced by Developers

Arcadis IBI Group offers you a career you can define...
Join us to discover it

- ◆ Develop server side functionality for product features
- ◆ Develop unit tests and integration tests using a modern testing framework

What is IBI Digital's Tech Stack

- ◆ Frontend: React, React Native, TypeScript
- ◆ Backend: Python, Django, Django rest framework, Postgres
- ◆ Devops: AWS, Dockers, Ansible, Jenkins

Desired Skills

- ◆ Understanding of the 3 key areas of web application architecture: server backend, frontend presentation (HTML, CSS) and interactive web (Javascript)
- ◆ Knowledge of Python & Django
- ◆ Frontend MVC framework (ReactJS - preferred, AngularJS)
- ◆ Concepts of HTTP protocol, REST APIs, JSON, HTML, CSS, Less or Sass
- ◆ Good at writing unit tests and integration tests
- ◆ Setting up web servers (nginx), app server (gunicorn or uwsgi), load balancing
- ◆ Caching techniques for application data & static files
- ◆ Hands-on experience with Postgres, MySQL
- ◆ Hands-on experience with websockets on both frontend and backend
- ◆ Hands-on experience with Public Cloud services such as AWS (EC2, S3, RDS, SQS)

Skills that Will Give You an Edge Over Others

- ◆ Experience working with Django and Django Rest Framework
- ◆ Experience working with reactjs, javascript
- ◆ Experience in writing unit tests code with libraries like unittest, pytest, Jest, Enzyme, Jasmine, Mocha
- ◆ Hands-on experience with websockets.
- ◆ Working with Postgres, Redis, Celery, rabbitmq, elastic search

What Makes Working at IBI Exciting?

- ◆ It's a fast-paced, extremely high-growth environment comprising of young talent.
- ◆ We work on latest technologies and are always eager to learn and adopt new ones.
- ◆ We are challenged and encouraged here to do stuff that is meaningful.
- ◆ We work with the best colleagues who are enthusiastic, hardworking, and supportive team-mates.
- ◆ We work hard and we work fast and, of course, we play hard as well.
- ◆ And most of all, we ship code every week!
