Job Title: Graduate Trainee – Developer (Front-End / Back-End)
Company: Hire3x
Location: [On Site]
Experience: 0 – 1 year
Employment Type: Full-Time

About Hire3x

Hire3x is a fast-growing product-driven company that builds innovative platforms in the domains of hiring, skilling, and assessments. We aim to simplify recruitment and training through cutting-edge technology and smart automation. As a fresher developer, you'll have the chance to work on real-world projects, learn from industry mentors, and grow your full-stack development skills.

Role Overview

We are looking for enthusiastic and self-motivated fresher developers to join our tech team. As a part of the development team, you'll contribute to building scalable web and mobile applications. You'll get exposure to both front-end and back-end technologies and be mentored by experienced engineers.

Key Responsibilities

- Assist in designing, coding, testing, and debugging software applications
- Work on both client-side and server-side development tasks
- Collaborate with team members to deliver quality software on time
- Write clean, maintainable code following best practices
- Participate in code reviews and documentation
- Continuously learn new technologies and frameworks as per project needs
- Understand requirements and convert them into functional modules
- Troubleshoot and fix bugs or performance bottlenecks

Preferred Skills & Technologies *(Knowledge of any of the following is a plus)*

Front-End:

- HTML, CSS, JavaScript
- React.js, Angular, or Vue.js (any one is good)

- Responsive Design & Basic UI/UX Principles

Back-End:

- Node.js, Python, Java, or PHP (any one language)
- RESTful APIs
- Database basics (Any SQL DB, MongoDB, or Firebase)

Tools:

- Git/GitHub
- VS Code or any IDE
- Familiarity with Agile or Scrum (good to have)

Who Can Apply

- B.Tech / B.E / B.Sc / BCA/BSC / MCA graduates
- Passionate about software development
- Basic understanding of programming concepts
- Good problem-solving and logical thinking
- Eagerness to learn and grow in a tech environment

What We Offer

- Hands-on training and real project exposure
- Opportunity to work on end-to-end product development
- Flexible and friendly work environment
- Mentorship from senior developers

CTC details

1. Bachelors - 3.5 to 5 LPA based on overall performance rating during the training
2. Masters - 4.5 to 6 LPA based on overall performance rating during the training

All candidates will be paid a stipend of Rs. 15k/- Per month during their Training period.

Job Description - Application Engineer (Flipkart)

Job Title: Application Engineer

Company: Flipkart

Location: Bangalore (On-site)

Experience: Fresher (0-2 Years)

CTC: Rs. 6 - 6.5 LPA

About the Role:

As an Application Engineer at Flipkart, you will be part of a dynamic team responsible for designing, developing, and maintaining scalable applications that enhance the e-commerce experience for millions

of customers. This role offers an exciting opportunity for fresh graduates who are passionate about technology, problem-solving, and product innovation.

Key Responsibilities:

- Develop, test, and deploy software applications using Java and related technologies.
- Work closely with the development and product teams to design scalable and efficient solutions.
- Manage and optimize data storage using MongoDB and other database systems.
- Troubleshoot, debug, and resolve technical issues in real-time production environments.
- Write clean, efficient, and well-documented code following industry best practices.
- Participate in code reviews and contribute to continuous process improvements.
- Collaborate with cross-functional teams to deliver high-quality software products on time.

Required Skills & Qualifications:

- Educational Qualification: B.E./B.Tech/BCA/MCA in Computer Science, Information Technology, or related fields (2024-25 batch preferred).
- Technical Skills:
 - Strong knowledge of Java programming language.
 - Hands-on understanding of MongoDB or similar NoSQL databases.
 - Good understanding of data structures, algorithms, and OOP concepts.
 - Basic familiarity with web technologies (HTML, REST APIs, JSON).

- Soft Skills:

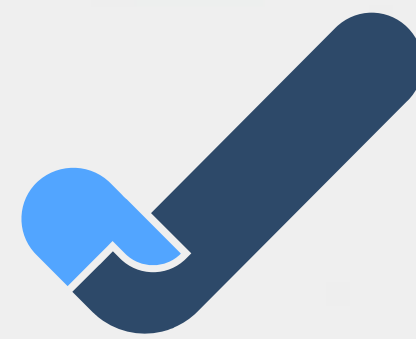

- Strong analytical and problem-solving skills.
- Excellent communication and collaboration abilities.
- Eagerness to learn and adapt to new technologies.

Why Join Flipkart?

- Work with one of India's largest e-commerce technology teams.
- Exposure to cutting-edge technologies and large-scale systems.
- Opportunity for mentorship and structured career growth.
- Collaborative and innovation-driven work environment.

Work Type: Full-time, On-site

Location: Flipkart Headquarters, Bangalore
