

## Job Announcement of SetuServ

The T&P Team wishes to inform about a job opportunity at Setuserv. SetuServ is looking for B.Tech background candidates to hire for Site Engineer enthusiastic and ready to learn and grow with the organization.

CGPA: 8 & above

Job Profile on offer:

- Job Designation: AI Engineer and Analyst
- Place of Posting : Hyderabad
- Job Description :

At Setuserv, we develop cutting-edge Generative AI, Machine Learning, and Analytics solutions tailored to the

pharmaceutical and CPG industries. We focus on leveraging advanced technologies to drive data-driven decisions

that enhance patient outcomes and streamline industry operations.

We are looking for skilled AI engineer/analysts with knowledge in Python programming, Generative AI/Machine

Learning/Natural Language Processing (NLP), and analytics. This role demands technical proficiency, problem-

solving skills, and effective communication to deliver impactful solutions to our clients.

Key Responsibilities:

- Translate client business needs into technical requirements.
- Design and implement GenAI, ML, data pipelines and Analytics solutions.
- Develop GenAI/NLP models to analyze unstructured data such as clinical trials, research papers, and social posts.
- Apply advanced analytics to extract actionable insights from large, complex datasets.
- Present findings and recommendations to clients and stakeholders.
- Collaborate with other team members to deliver high-quality solutions.
- Communicate technical concepts and findings to non-technical stakeholders.
- Stay updated on advancements in GenAI, ML, and pharmaceutical analytics.
- Ensure timely project deliverables and status updates.
- Develop custom analyses using Python.

## Qualifications:

- Strong academic performance in courses related to data science, data engineering and data analytics.
- Proven expertise with Python programming and cloud infrastructure
- Hands-on experience with GenAI, ML, or NLP technologies.
- Proficiency in database management and data visualization tools (e.g., Tableau, Power BI).
- Strong problem-solving and critical-thinking abilities.
- High motivation to self learn, adaptability, and attention to detail.
- Excellent communication skills.
- Ability to work collaboratively in a team environment.
- Proven track record in managing multiple projects and meeting deadlines.
- Experience with cloud-based analytics platforms (AWS, Azure, Google Cloud).

## Why Join Us?

- Work on innovative projects that impact the pharmaceutical industry.
  - Collaborate with a team of passionate professionals.
  - Opportunities for professional growth and development.
  - Competitive salary, bonus incentives, and stock options.
- Any other details :

We're looking for someone with a proactive mindset, a passion for learning, and the ability to adapt to a fast-paced

startup environment. If you're ready to wear multiple hats and make a broad impact, we'd love to hear from you!

## Selection Procedure:

1. Shortlist from Resumes
2. Assignment
3. Written test
4. Technical Interview
5. Personal Interview
