
ANTAHPRAGNYA-2K18

-Celebrating RGUKT's 10 years of excellence

We, the RGUKTians are not known for being only engineers. We are called, the INNOVATORS.

So, it's time to start our innovations.

Identify the problem,

Feel the problem,

Now be an innovator and Solve the problem.

You come up with a problem and the solution, we'll take it beyond.....

Take a chance cause this time the fest is bigger and better.

Regards,
Team AntahPragnya.
