SIVILIZE 2k18

"Dreams come true when desire transforms into concrete action"

As a part of Antahpragnya 2k18, We are going to conduct "Concreting the Concrete" on 12-02-2018 from 3:00 pm to 6:00 pm. Concrete is the second most consumed product on earth after water. In this students need to prepare a concrete mould which is economical but gives high strength after the test. Winner and runners decided based on whose mould exhibits high strength.

Rules :

- * It is an event only for civil department students of all levels.
- * Maximum number of students are Three in each team.
- * Maximum time given is only two hours.
- * Judges decision is the final decision.

Venue:

Civil lab complex.
