

ANTAH PRAGNYA 2k17

Circuitrix

The rounds present in Circuitrix are:

1st Round:

This is the filtering round and it has some basic questions of electronics.

2nd Round:

In the second round we will give some circuits and the participants have to analyse the given circuit and we will also check the problem solving skills in this round.

3rd Round:

The selected teams from the 2nd round will be participating in this round. This is the final round. In this round the problem statement will be given to the participants and they have to understand the logic behind the problem statement, design and implement the circuit on the bread board

Suggested mobile application for pin configuration: TTLs

Registration Fee: Rs.50/-

Rules and Regulations:

1. Each team can have 2 participants.
2. The problem statement will be given on spot.
3. The decision of the judges is final.

Prize Money up to Rs.1,000/-

Last Date for Registration through online: 28th February, 2017
