

iB Internship - FAQs

Date: 03/12/2016

Technical Stream

Q. What was the internship recruitment procedure for technical stream last year?

First round - A word game called PREDICTO where in the participants had to guess a four letter word from some clues.

Second round - Group discussion in both English and Telugu

Third Round - Technical Written test. The test included all the Computer Science concepts: Programming, Design and Analysis of Algorithms, DBMS etc.

Until the third round there was no elimination and all the applied candidates were tested. After the third round, a few selected applicants had to attend an interview round.

Q. What will be the internship recruitment procedure this year?

The internship procedure may not be the same as the last year. You will be informed about the procedure.

Q. What are the different technical streams in which I can work on?

Cybersecurity, Internet of Things, Data Analytics, Android Game Development, Web Development (Frontend and Backend) are the different technical streams in which you can work on at iB.

Q. I am interested in Internet of Things but I fear clearing the technical written test as the test will be based on Computer Science and I am from Electronics background. What can I do?

No worries. Separate written test will be conducted for ECE and CSE.
