Company

Provakil is a new-age legal operations management suite for enterprises. Provakil provides an integrated SaaS platform for legal teams to manage all aspects of legal operations including litigation, contracts, compliances, and intellectual property with customized workflows and analytics. We provide automatic data updates from 8000+ courts, trademark and patent registries, and other sources of public legal data. The platform is equipped with advanced ML/AI capabilities for intelligent document review, IP watch & search, case law research, and other use cases. Provakil is trusted by over 100 companies and 50 law firms to manage different aspects of their legal operations.

Why join us?

Fast Growing

We are a fast-growing organization with a 300% Y-o-Y growth in customers and revenue. We believe in setting expectations really high and stretching ourselves to deliver on it!

Scale

If you like to solve problems of scale, the legal industry has tremendous volumes of data to work with. We are building a unique data-driven solution to simplify legal operations for large enterprises. Our systems currently process over 12.5k transactions every minute, a metric that will multiply as we scale to new geographies.

Team

We are a team with a strong background and believe in working hard to build a reputation. The founding team consists of engineers from IIT and a lawyer with a practice in the Supreme Court. Our App store rating is 4.6 and our customers can't stop talking about us!
