MEDHA AT GLANCE:

Medha Servo Drives Pvt. Ltd., founded in 1984, is focused on rail transportation. Since inception, Medha has used Research and Development as a tool for success and today we are proud to be known for our product range, domain knowledge, design expertise, quality and manufacturing capabilities.

Starting from humble beginning, over the last 40 years our company has grown to employ over 6000+ talented people whose commitment has led to a sales revenue of INR 4300 crores, with the revenues growing at the rate of 27% year over year (CAGR) for the past ten years. Medha's vision is to become world leader in railway products and to achieve this we specialise in three areas, Control Electronics, Power Electronics and safety critical Signalling

We have designed and manufactured various world-class high-tech electronics products for application on locomotives, train-sets, coaches, railway stations and yards. We specialize in designing and engineering our products to withstand shock and vibration, wide temperature variations, and electrical disturbances that are typical of harsh locomotive environment. Our strength lies in designing, customizing and integrating systems that involve multiple functional domains such as control electronics, power electronics, fail safety and mechanical construction. Medha's R&D Centre is 1100+ people strong and has all the infrastructure required for developing sophisticated products.

Medha has also achieved **CMMI Level 5 certification** for well defined design processes for new product development.

Medha was awarded IRIS and ISO 9001:2015 certificate by DNV GL Assessors accredited by NABCB and established a reputation for quality products and excellent after sales service.

Medha's motto being 'translating technology into innovative solutions', our employees believe in making our customers' lives better by designing better products and improving existing products.

In 2007, Medha started a charitable institution by the name of 'Medha Charitable Trust' for the upliftment of poor students. It is the goal of the trust to improve the lives of these students by supporting them throughout their education and helping them become self sufficient in the long run. The trust has touched the lives of more than 22,00,000 students in various schools so far since its establishment.
