

Training & Placement Office**NEURAL HACK SEASON 6 CONTEST by VIRTUSA**

It is hereby informed to all Final year (E4) Students that the **VIRTUSA** would like to conduct Neural Hack Season 6 contest. The details are as follows:

About NeuralHack

This hackathon is specially designed for students to stimulate skills like problem-solving and creative thinking to crack industrial complexities with their codes. We have successfully executed five seasons of Neuralhack. We are pleased to share that season five received the highest registrations from over a hundred thousand students. We extended about a thousand job offers and internship opportunities to our participants. This year, in an effort to provide an opportunity for as many students as possible, we are extending this competition to **all branches of BTech..**

NeuralHack provides the platform for students to explore their interest in programming and an opportunity to compete and exchange ideas with contestants worldwide.

That's not all! We are thrilled to give away various goodies, gifts, and cash prizes throughout the competition. If you seek to enhance your skills, are keen to study something new, or are curious about connecting with the worldwide community, join us for Neural Hack Season-6.

We will have three rounds in phases during the entire competition, starting with:

- **Round I (Preliminary)** - Online coding challenge
- **Round II** - Enhanced coding contest
- **Grand finale**- Hackathon

What's in it for you?

NeuralHack participants have the chance to win prizes and obtain unique opportunities.

- **Intern at Virtusa**
- **Receive a full-time job opportunity at Virtusa**
- **Win exciting prizes**

Cash prizes:

- **1st prize – \$1000 USD**
- **2nd prize – \$700 USD**
- **3rd prize – \$350 USD**

Note: Prize money will be paid out in local currency

And many more exciting goodies and surprises in store!
Top 3 teams and top 2 individuals will receive special awards

Eligibility criteria:

If you have a knack for coding, this is where you need to be!

We need a coder with a minimum of 50% marks in full-time courses in the following branches: BE, ME, MSc, MCA, M.Tech, B.Tech. If you are a student graduating in 2023 – for any of these branches, you are eligible, too.

Terms and conditions

- At any stage during the process, Virtusa maintains the right to ask for documentation proving your eligibility.
- Virtusa has the exclusive authority to disqualify any participant(s) or team(s) during the process for any irregularities.
- The competition's terms and conditions are subject to change per business needs.
- You cannot assign your access privileges to anyone without obtaining Virtusa's written authorization.
- You agree to alert Virtusa immediately if you learn of unauthorized use of another participant's identification or any other competition-related violation. You can contact us by writing to us at neuralhack@virtusa.com

Timelines of competition

- Registrations close on **13th August 2022**.
