As a responsible Corporate Citizen, Siemens India endeavors to support and promote technical education by leveraging its core competencies such as innovative technologies and know-how so as to produce Industry-ready technicians and engineers. The Siemens Scholarship Program for engineering students, based on the German dual education pedagogy, intends to address this gap. Through this program Siemens India offers scholarships across four years to meritorious engineering students from economically-disadvantaged families.

Additionally, internships, training, projects and mentorship provided by Siemens would acquaint these bright minds with the dynamics of the industry, thereby leading to their holistic development. The program will empower the students to pursue their education and launch a sustainable career in Engineering, R&D or Manufacturing.

Highlights

- Annual Scholarship comprises:
 - Reimbursement of tuition fees (if the student is availing any other scholarship, the balance tuition fee, if any, would be reimbursed)
 - Flat allowances for books, stationery, hostel, additional classes, etc.
 - 50% scholarship is reserved for girls
 - Holistic development program
 - Scholarship subject to students clearing all subjects and scoring first class

How the Siemens Scholarship Program has grown

	2013	2014	2015	2016
Number of students	20	80	130	285
Number of colleges	6	24	34	47
Area covered in India (states)	3	16	19	22

Siemens Scholarship Program 2017 - 18

The infographic features the Siemens logo at the top left with the tagline 'Ingenuity for life'. At the top center is a graduation cap. Below it, a network of icons and text labels represents the program's components: 'Holistic development' (brain icon), 'Financial support' (dollar sign icon), 'Soft skills' (person with gear icon), 'Mechatronics training' (gears icon), 'Functional skills' (bar chart icon), 'Internship' (person with clipboard icon), and 'Mentoring' (person with speech bubble icon). At the bottom of the infographic is a green button with the text 'Click here to Apply Now'.
