KALGUDI ONLINE TEST

EDUCATIONAL QUALIFICATION:

Branches: All Branches

Year of Pass: 2020

CTC: 3.0 LPA (Internship duration 15,000/- Stipend will be paid and the internship duration is up to 6 Months)

Bond: 2.5 YRS (from the day of joining)

Designation: Software Design Engineer.

Note:

- Candidate needs to be logically strong and decent communication skills with good reading skills.
- Immediate joining

Skills & Roles:

- **Program & Design**
- Responsible for software design and implementation, creating or modifying existing code to add new features and improve performance.
- Should be flexible to learn and work in any technology as per the changing needs of the company / application / customer, like Java, Python, Angular, HTML5, Web-services, AWS, Application Security, Test automation. Knowledge of any one or multiple technologies mentioned above is an added advantage.
- Ability to understand the problems quickly and come up with multiple solutions is key. Identifying pros and cons of each approach and striking the balance in finalizing the right approach would be much appreciated and preferred. Should have ability to develop and maintain positive working relationship with colleagues.
- We expect self-managed and flexible towards learning any new technologies as key elements of selection. If you expect us to tell "What to do", "How to do" and "Why to do it that way", in a way if you are instruction driven - We strongly suggest not to apply for this position.
