

Attention Students,

Registrations for TCS CodeVita Season 14 are now officially open!

Recognised by the *Guinness Book of World Records* as the world's largest programming contest, TCS CodeVita is your gateway to global recognition, major cash rewards, and lucrative job offers at Tata Consultancy Services (TCS).

Eligibility & Batch Details

Open to all full-time undergraduate and postgraduate students from any **Science or Engineering stream** who are graduating in the following years:

- **2027, 2028, 2029, and 2030**

Key Highlights & Changes This Season

- **Condensed Testing:** Participants will get **3 hours** to solve the programming problems (a shift from the previous 6-hour format).
- **Allowed Languages:** Code submissions are strictly limited to **C, C++, Java, and Python**.
- **The Grand Finale:** Top finalists will win a fully sponsored trip to compete live in India.

How to Register

Click the official registration link below to complete your profile:

Register for [TCS CodeVita Season 14](#)

Note: Ensure you complete the application process 100% on the portal, including selecting your attempt region.

Best regards,

[Your Department/Placement Cell Name]

Extracted Contest Details (For Your Understanding)

To help your team understand the framework of TCS CodeVita Season 14, the core parameters extracted from the official guidelines are broken down below:

1. What's New in Season 14?

- **Time Limit Reduction:** Instead of the historical 6-hour window, contestants now have exactly **3 hours** to complete their coding tasks once they begin.
- **Strict Language Bounds:** Only **four** primary programming languages are accepted: C, C++, Java, and Python. Traditional tools or other scripting formats have been removed.
- **Advancement Criteria:** Progression is heavily performance-weighted. Only the top performers from each round secure slots in subsequent phases. Future rounds may introduce technologies beyond traditional data structures and algorithms (DSA).
-

2. The Progression Structure

- **Round 1 (Pre-Qualifier):** A localized online coding challenge. Clearing this round with a competitive rank makes students eligible for direct placement interviews at TCS (typically for *Ninja* or *Digital* profiles).
- **Round 2 (Qualifier):** An advanced round with a higher difficulty tier. Exceptional ranks here unlock high-tier job profiles (e.g., *TCS Digital* or *TCS Prime*, offering packages up to **9 LPA**).
- **Round 3 (Grand Finale):** An invite-only, in-person live event hosted at a TCS campus in India. Travel and accommodation costs for international finalists are fully covered by TCS.

3. Incentives & Prizes

- **Total Prize Pool: USD 20,000** split among the top 3 global winners.
- **Career Pathways:** Top finalists receive internship offers with **TCS Research and Innovation** alongside direct fast-track career opportunities.
- **Certifications:** Every student demonstrating high coding performance receives a verifiable **Global Rank Certificate**.
