Medha at a Glance

Medha Servo Drives Pvt. Ltd., founded in 1984, is focused on rail transportation. Since inception, Medha has used Research and Development as a tool for success and today we are proud to be known for our product range, domain knowledge, design expertise, quality and manufacturing capabilities. Starting from humble beginning, over the last 36 years our company has grown to employ over 3200 talented people whose commitment has led to a sales revenue of INR 17.4 billion (approximately USD 250 million) for the year 2018-19, with the revenues growing at the rate of 27% year over year (CAGR) for the past ten years. Medha's vision is to become world leader in railway products and to achieve this we specialise in three areas, Control Electronics, Power Electronics and safety critical Signalling.

We have designed and manufactured various world-class high-tech electronics products for application on locomotives, trainsets, coaches, railway stations and yards. We specialise in designing and engineering our products to withstand shock and vibration, wide temperature variations, and electrical disturbances that are typical of harsh locomotive environment. Our strength lies in designing, customising and integrating systems that involve multiple functional domains such as control electronics, power electronics, fail safety and mechanical construction. Medha's R&D Centre is 700 people strong and has all the infrastructure required for developing sophisticated products. Medha has also achieved CMMI Level 4 certification for well-defined design processes for new product development. We are working towards CMMI Level 5 certification by further improving our design processes.

At Medha, our products, our people and our approach to business are held to only the highest standards. We build quality into our products by following well designed processes and implementing end-to-end manufacturing. We profoundly believe in professional management at all levels and strictly follow Quality Assurance System as per IRIS and ISO 9001:2015 standard. Medha was awarded IRIS and ISO 9001:2015 certificate by DNV GL Assessors accredited by NABCB and established a reputation for quality products and excellent after sales service. Our quality policy has been, 'We are committed to provide reliable products and services meeting customer expectations and applicable statutory and regulatory requirements with excellence in performance and cost effectiveness through a continually improving Business Management System'.

Medha's motto being 'translating technology into innovative solutions', our employees believe in making our customers' lives better by designing better products and improving existing products. To us, the idea of innovation extends beyond building a product. We continue to train our customers and service the product throughout the design life of a product (typically 10 – 25 years).

Medha's R&D Centre, R&D Centre Unit II, and Manufacturing Unit, located in three different areas, are built over a combined area of about 18 acres of land in the heart of industrial areas near Hyderabad, India. These state-of-the-art facilities encompass the capability to research, design, develop, manufacture, service and provide in-field product support.

In 2007, Medha started a charitable institution by the name of '[Medha Charitable Trust](#)' for the upliftment of poor students. It is the goal of the trust to improve the lives of these students by supporting them throughout their education and helping them become self-sufficient in the long run. The trust has touched the lives of more than 22,00,000 students in various schools so far since its establishment.
