'Sadhaka'- EPAM's OFF Campus Education Program | Only for 2024 Grads!

EPAM is pleased to extend an exclusive invitation to our university **graduates of the B.Tech/B.E (circuit branches) program, class of 2024, to participate in their esteemed "Sadhaka" OFF Campus Education Program** – an online self-paced learning program. This initiative, curated by EPAM, is tailored to equip aspiring software developers with the requisite skills and knowledge vital for thriving in the dynamic landscape of technology.

The "Sadhaka" Education Program offers a meticulously crafted curriculum aimed at rendering students' industry-ready upon its completion. Please note that this opportunity is available to students at **ZERO COST** and here's a glimpse of what the program entails:

- **Comprehensive Training:** Our curriculum spans an extensive array of subjects encompassing programming languages, software development methodologies, data structures, algorithms, and beyond.
- **Certification:** Successful completion of the program culminates in the acquisition of a prestigious certification from EPAM, substantiating the students' proficiency and augmenting their credibility among prospective employers.
- **Industry Readiness:** Our paramount objective is to ensure that participants emerge fully equipped to embark upon their professional journey. By diligently mastering the course content and actively engaging in our training sessions, students will be poised to confront the challenges inherent in a career in software development.
- **Career Opportunities:** Exceptional performance in the program may warrant an invitation for participants to join EPAM, thereby affording them invaluable insights into the inner workings of a software organization and further refining their skill set.

The Sadhaka Program is a remarkable opportunity to kickstart a career in the software industry, and given the limited availability of spaces, we encourage you to promptly secure your students' enrollment today.

Refer to the links below for eligibility criteria, <u>course details</u> and registration.

For JAVA:- SADHAKA-An Online Self-Paced Learning Program (Java) | EPAM
For Test Automation:- SADHAKA-An Online Self-Paced Learning Program (Test Automation) | EPAM
