

Registration Open for Earthful Recruitment Drive

Dear Students,

We are pleased to announce the **Earthful** Campus Recruitment Drive for graduates of the 2025 batch.

Please find the [Job Description here](#):

Job Profile on offer:

- Job Designation: TECHNICAL ASSOCIATE
- Place of Posting : HYDERABAD
- Job Description: Earthful is looking for talented individuals to join our technical team, working on high-impact projects at the intersection of engineering, data analytics, and operations. This role offers hands-on experience in process optimization, automation, and product development, helping drive efficiency and innovation in the health and wellness industry.

Why Join Us?

- Work directly with the founders and senior leadership on real-world technical challenges.
- Apply engineering principles, data analytics, and automation to improve operations.
- Gain exposure to R&D, supply chain management, and manufacturing processes.
- Lead and contribute to strategic technical projects, from new product development to process optimization.

Roles & Responsibilities

- Collaborate with R&D, manufacturing, and supply chain teams to optimize production processes, quality control, and cost efficiency.
- Use data analytics, automation, and process modeling to drive operational improvements.
- Conduct technical feasibility studies for new product development and scaling production.
- Research and integrate emerging technologies such as predictive analytics and AI-driven process automation.
- Assist in designing workflow improvements and automation solutions for production and supply chain efficiency.
- Support the development of data dashboards and performance monitoring systems to track business and technical KPIs.

Who Can Apply?

- Final-year engineering students.
- Strong problem-solving and analytical skills, with an interest in process optimization, manufacturing efficiency, and data-driven decision-making.
- Hands-on experience with Excel, SQL, Python, or data visualization tools is a plus.
- Ability to analyze technical data, interpret trends, and propose improvements.
- Proactive and entrepreneurial mindset, with the ability to work independently and take ownership of projects.
- Strong communication skills for effective collaboration with cross-functional teams.

Salary Details:

- Cost to Company (Rs. In lakhs per annum) : minimum 3 LPA TO 3.6 LPA (BASED ON SKILLS AND EXPERIENCE)
- Training / Probationary period : 6 MONTHS

Selection Procedure:

- Shortlist from Resumes
- Written Test: SCENARIO BASED CASE STUDIES
- Personal Interview
- Technical Interview
