Job Description:

We are seeking a talented Java Developer to join our dynamic team. The ideal candidate will have a passion for software development, a strong understanding of Java programming concepts, and the ability to work effectively in a fast-paced environment.

Desired Skills:

- Proficient in Java, Spring Boot, J2EE, Hibernate, SQL Database (Oracle / MYSQL).
- Strong coding skills on Core Java and familiar with Java17.
- Should be able to analyze and code complex algorithms/logic.
- Should have hands-on knowledge of working on Java Multi-threading programs.
- Fundamentals of object oriented design, data structures.

Responsibilities:

- Strong analytical and problem-solving skills.
- Strong communication skills.
- Confident communicator and solid relationship skills.
- Good attitude and able to work under pressure.
- Able to work well in a team environment or independently.
- Good debugging and troubleshooting skills.

About Us

FastPix is the API for Video.... just like Stripe is the API for payments, Twilio for SMS and Auth0 for authentication. That said, Video is bigger. Much bigger. Simply put - Video is more than 80% of internet traffic! Our mission is to make it simple for developers to build video into their products and platforms. Both for on-demand video and live streaming. We do so by solving hard things in Video like encoding, streaming, monitoring and more. By doing so via our API, we help developers focus less on the complexities of Video and more on their product experiences and business outcomes. We handle all things Video. We're FastPix.

How to Apply: If meet the eligibility criteria and interested about this opportunity, please apply through the Training & Placement Portal (<https://tpcrt.rf.gd>) by **May 26, 2024, 3:00PM**.
