WIT ACE HACKATHON 2021

COVID-19 has thrown us into a humanitarian crisis, but a greater threat looms in the future. The WiT-ACE Hackathon 2.0, in partnership with IBM, is a call to action to tackle the single largest challenge in the face of humanity— Climate Change. Through this hackathon, we aim to bring together transformative ideas and innovative solutions for the betterment of our environment.

The theme for this year's Hackathon is "She the Force: Hack for Sustainability with Tech Solutions", and is a way for women to collaborate and create a positive impact, with the power to save our planet, as well as, pave way for a safer future for generations to come.

TIMELINE

- Registration Begins - 19th May
- Registration Closes - 9th June
- Hackathon Event timeline – 16th to 18th June
- Mentoring & Technology Enablement session by IBM & WiT ACE – 10th to 15th June
- Last date of idea submission - 18th June

HACKATHON RULES & GUIDELINES

- Teams can consist of a maximum of five members with not more than two male members. Team leader has to be a female candidate. Each team can have one mentor apart from five

team members. Mentors can be male or female. You are not allowed to be a part of more than one team at the event.

- In the spirit of Hackathon, we recommend participants to not start development before the actual date of event. However, teams can brainstorm ideas and create wireframes before the event.

- A team can submit only one entry for the Hackathon.

- Post registration on WIT ACE platform, teams are advised to register for the Call for Code (https://developer.ibm.com/callforcode/get-started/) and be a part of the slack channel for discussion on any query resolution.

- Your submission must use one or more of IBM Cloud Services or IBM Systems. See the IBM Cloud catalog for a list of services that can be used. Your application can use additional data sets, libraries, and externally hosted services to complement the IBM Cloud Services or IBM Systems.

SUBMISSION GUIDELINES

To submit your solution for 'She the Force: Hack for Sustainability with tech solutions', your team leader will require to provide following details:

- Submission name: The name for your solution in five words or less.
- Long description: Describe your solution in more detail. Give us a more-detailed description of what you're building, what problem you are solving, and why it matters in less than 500 words.
- Solution roadmap: How mature is your submission and where do you intend to take it from here?
- Link to GitHub code repository. You can provide additional description and diagrams here.
- Link to a three-minute demo video. Record a demo of your project, upload it to YouTube or Vimeo, and share the URL.
- List of IBM Cloud Services or IBM Systems used in the solution.
- Team leaders will need to provide information on up to four additional team members.

EVALUATION GUIDELINES

Completeness and transferability.

How fully has the idea been implemented? Can it achieve an impact in the field? Can it be transferred elsewhere?

Effectiveness and efficiency

Does the solution address a high-priority area? Does it achieve its goal effectively and efficiently? Can it scale?

Design and usability

How good is the design, user experience, and ease of use of the solution? How quickly can it be put to use?

Creativity and innovation

How unique was the approach to solving a long-standing or previously intractable problem?
