### **Company profile:**

We want to introduce the Philosophy of Ikigai into Technology. 21<sup>st</sup> Century brought an unforeseen exponential rise in technology. Wild imaginations of the last century became brilliant ideas of this century for entrepreneurial success through smart adaptation of technology. It is well-acknowledged by successful companies across all industries that wise use of technology is one of the most important factors of their growth. Digital transformation and tech-orientation over the last years was a prioritized agenda for many organizations so that they become sustainable and agile. However, most of the organizations have not been able to extract their true worth or elevate their value, even after the transformation. It is primarily because they have not been able to find the right balance among their work, expertise, revenues, and the needs of the competitive market. That is where we, at **Techigai**, come into the picture.

Techigai is a global IT consulting and services firm founded in 2020 with a passion for technology. We bring in the most current methods to help growth-oriented firms lead their markets. With our in-depth technical expertise, domain specific know-

how and business sensitivity knowledge, we keep our clients moving forward.

The Company delivers its operations from its delivery center based in Hyderabad, India. The company is promoted by highly experienced professionals catering for export market in the field of Software Development.

Techigai's mission is to deliver innovative software solutions without any surprises to customers around the world. We strive to achieve this with integrity, deep commitment and mutual respect towards our customers, partners, and employees.

### **Techigai Values:**

- Win-win strategy, long-term, trusted relationship
- Make commitments and honouring them
- Openness and Integrity
- Passionate about technology
- Flexible and continuous improvement
