Job Announcement of COSMICLABS

COSMICLABS would like to conduct recruitment drive for CSE, ECE & ME graduates of 2022 for three roles. Interested and eligible students apply at <http://tnp.rgukt.ac.in/login.php> by 9-02-2022.

- 1. Blockchain Engineer** - We are looking for students that have an interest and hands-on experience with blockchain and are willing to offer between 3.6LPA to 5LPA (can go up to 6LPA if the selected candidate is exceptional) as a starting package based on projects worked on, past experience with open source contributions, projects that are live now and more.
- 2. Application Engineer** - We are also looking to hire for the role, which starts as an Application Developer but based on performance/competence, will eventually shift to blockchain. This role will work with web2 & web3 applications and we will mostly need candidates with experience in JavaScript (frontend & backend) with the package starting at 3.6 LPA.
- 3. Testing Engineer** - Finally, we are looking for folks with high attention to detail from a testing perspective and this role will also start at 3.6LPA due to the effort involved in automation, optimization and writing simulators for various blockchain environments.
